

## **Peak Oilfield Service Company HSE Anonymous Reporting**

Increasingly, employees of our company have requested a means to submit anonymous HSE Concerns – through via the web. This is the Company’s means to address that request.

All HSE Concerns submitted under this program remain anonymous, unless you specifically include your name or contact information, such as personal email address or phone number in your concern for response, otherwise only the Peak HSE Reporting link’s web address will be referenced to the HSE Department recipient.

### **How to Submit a HSE Concern...**

First of all, if this is an emergency or the likelihood of imminent potential injury to yourself, a fellow worker or any other personnel and/or a release to the environment PLEASE use your Stop-Work-Authority and immediately stop the unsafe act and/or condition, and immediately contact your supervisor!

Otherwise please document the HSE Concern, as much as possible, including location of occurrence, circumstances and any other pertinent information and submit it through the following link. While holding down the Ctrl key, click [here](#) to submit your concern. You can also submit your concern to the following email address: [hsereporting@peakalaska.com](mailto:hsereporting@peakalaska.com)

### **Anonymous HSE Concerns...**

When you fill out your HSE concern and click the Send button, the HSE concern is immediately delivered through a secure server that masks the sender’s identity to the HSE Director. A number will be assigned to the concern and it will be forwarded to a Peak Management representative for investigation and corrective action.
